School Report: 2022-23

The Samhita Academy is a school with an overarching goal of equipping young minds with quality education that prepares them for life. Our vision is to create a sustainable and equitable model of education to prepare socially responsible future leaders in a caring, creative and value-based environment. Our mission is to prepare students to competently engage themselves in the society; to inculcate a spirit of compassion and commitment to society and environment; to establish and promote excellence in child development, academics and school management.

We endeavour to foster a nurturing environment to kindle the flame of love in children. We strive to erase biases and prejudices and foster mutual respect, so that our children grow up in the true spirit of freedom - where their minds will be free of fear.

The Samhita Academy was established in 2009 and provides quality education to the students of economically weaker sections of the society in an integrated atmosphere along with the students from middle and upper middle-class families. The strength of the school is around 1386 students ranging from KG to Class XII. The experiential methodology followed in imparting education enables the students to internalize concepts and helps in making learning permanent.
