# (idea)impact

An idea imagined. A seed sown. A dream come true. The Samhita Academy has its roots in the Advaith Foundation- a charitable trust set up by Mr. SD Shibulal in 2004.

A trust that has laid special emphasis on empowering children less privileged.

The Samhita Academy prepares children for the University of Life -by providing the right stimulus and environment to every child to flourish and to grow. To become confident, free-thinking, individuals who are socially responsible and responsive.

Today, The Samhita Academy has spread its wings, with schools in Bangalore and Coimbatore. It has touched the lives of nearly 1000 children and is helping them prepare for the University of Life. Staying faithful to its core belief of 'empowerment through education', 25% of Samhita children come from the underprivileged sections of society.

The values on which The Samhita Academy is founded are Respect. Responsibility. Care. Creativity. Achievement. Tempered with an unerring pursuit of Excellence - Individual and Collective.

## Our Vision

To nurture creative, socially responsible future leaders in a value-based, equitable model of educational excellence.

The birth of an idea

Empowerment through Education

Equal opportunity for all

## Our Values

- Respect for all
- Responsibility for our actions
- Care for, people, surroundings and the environment
- Creativity in every endeavour
- Achievements celebrated big and small
- Excellence both individual and collective

# (learning)<sup>samhita way</sup>

## Learning for understanding

The Samhita Way of Learning is premised on research based progressive education. An approach fine tuned through experience and learnings.

Learning is not a passive activity and learner is not the passive recipient of 'knowledge' which is poured in and reproduced. Thinking is at the centre of learning. As a mental faculty thinking effort can be used to retain and 'record' or memorise information and concepts, or it can be used in a deeper sense to reason and understand concepts in order to be able to apply them. After all the goal of learning is ultimately its application and not just 'correct' answers on tests.

The Samhita way recognises the fundamental principle of providing the child with the right and relevant stimuli and experiences.

# (teaching)<sup>samhita way</sup>

## Teaching for thinking

The Samhita Way recognises that both Learning and Teaching are intricately linked. Teaching is matched to what is known about the process of learning in children.

The goal of the teacher is to create an environment through robust instructional methods where reasoning and critical thinking become a child's most empowering faculties.

Retention and recall of new learning improves if it is connected to what is already known and existing in the learners mind. New topics are introduced with connections to the real world and relevance to real life.

The Samhita Way is designed for providing a caring and emotionally safe environment in which thinking and learning can thrive.

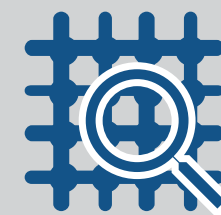

- A variety of activities and experiences related to concepts
- Provide opportunities that challenge and stretch a child's abilities.

School patterned on CBSE

Balanced Approach

Research Based Framework

- Uses a variety of instructional strategies and tools used to equip students with the models to assimilate new learning that will make them good learners for life
- Give time each day to practice both application and procedural skills

# (one school)<sup>two cities</sup>

The Samhita Academy from a tiny seedling has grown to spread its branches in the two cities of Bangalore and Coimbatore. Today The Samhita Academy is nurturing the dreams, ambitions and aspirations of nearly 1000 students.

The Samhita Academy, true to its founding principles has been empowering children through education. For that reason 25% of children are from homes less privileged.

The two schools of Samhita Academy have fully integrated campuses. With intelligently designed classrooms that encourage interactivity between students and between students and teachers.

The school premises have labs for the Languages, Mathematics and the Sciences. It has sports facilities and other co-curricular activities.

The campuses happy places where creative learning is encouraged future leaders are moulded. They are are safe and secure with CCTV surveillance and RFID Cards to track children on the way to school and and back home.

- Music Room

Up to Class XII

Integrated Campus

Academic & Sports Infra

# (campus) coimbatore

Following in the footsteps of Bangalore The Samhita Academy, Coimbatore took wings in 2011. Again, its driving force has been to enable Empowerment through Education. In the next session 2016-17, The Samhita Academy Coimbatore will function from its fully integrated campus.

CBSE patterned school will welcome students from pre-primary to Grade III. The Coimbatore Campus is spread over 6 acres and like the Bangalore campus is designed to be compact and complete.

The Samhita Academy Coimbatore will grow into a campus with all the facilities

one expects from a school that has its foundations in philanthropy and its founders- builders of legacies.
